

Invites you to attend the May ASPEN Webinar Nutrition Assessment: Nutrition Focused Physical Exam

Thursday, May 10, 2018

1:00 pm - 2:30pm CST (Registration starts at 12:30 pm)

Location: MD Anderson BSRB S.18331

*Signage with directions will be posted the day of the event

Description:

This webinar will provide an overview of the Nutrition Focused Physical Exam (NFPE) for both the adult and pediatric patient populations. The speakers will discuss characteristics of malnutrition such as muscle wasting, fat loss, edema, and micronutrient abnormalities and how to identify them. They will provide examples of how they have incorporated NFPE into their current practice and how they have overcome the barriers to get to this point. They will examine case studies to put the entire NFPE to use and review coding for malnutrition

Learning Objectives:

1. Summarize the use of a nutrition focused physical exam in identifying malnutrition in both pediatric and adult patients.
2. Identify clinical signs of malnutrition, including muscle wasting, fat loss, edema and micronutrient abnormalities.
3. Determine how to incorporate the nutrition focused physical exam into practice.

Faculty and Topics:
